Attachment: Replacement Sheet

REMARKS/ARGUMENTS

Favorable reconsideration of the present application is respectfully requested.

All of the claims have been allowed, subject to the correction of formal matters.

A substitute specification is being submitted in response to the objection to the specification. No new matter has been introduced. For example, elements 103, 105 and 114, which have been introduced into the specification, would have been clearly evident to those skilled in the art. Additionally, the element having reference numeral 95 has been deleted from Figure 2.

The claims have been revised as required in the objection thereto.

Applicants therefore believe that the present application is in a condition for allowance and respectfully solicit an early Notice of Allowability.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
